Recycling ~ It's Makes Good Business Sense!

Did you know that 39% of what California businesses throw away is paper? According to the Native Forest Network, 100 million trees are ground up each year to produce junk mail. What a waste!

You can help change that by participating in a Business Recycling Program, offered by San Bruno Garbage Company. Whether your business is a small one-person operation, or you have 1000 employees, there is a recycling program available to fit your needs.

San Bruno Garbage Company offers free recycling services to their commercial customers, including the collection of mixed paper, bottles, cans and cardboard. On request, San Bruno Garbage will perform a waste analysis to help determine what materials can be diverted from your business's waste stream. They will even help you find disposal options for hazardous waste, such as computer monitors, televisions, fluorescent tubes, cell phones, batteries and paint.

So what are you waiting for? Recycling service is just a phone call away, and if you call now, you can receive a **free** 7-gallon recycling container, courtesy of the City of San Bruno.

Remember, by not recycling at your business, you're not only wasting money, you're wasting precious resources! Call San Bruno Garbage Company today, for your free recycling container and to start something good ~ for your business and the environment!

For more information, or to receive your free recycling container, call San Bruno Garbage Company at 650-583-8536.

Recycling containers are available on a first-come, first service basis and were purchased with Grant Funds provided by the California Department of Conservation.

President's Message

Happy New Year everyone and congratulations to all of us who have made it through another holiday season of over-spending, over-indulgence and never enough sleep. Don't get me wrong, I thoroughly enjoy the holidays. From decorating the tree to Holiday parties, shopping and wrapping, I am totally into it! And yet, I am always glad when it is over!

Besides all of the festivities that take place, I also find the holidays to be a time of reflection. A look back on the challenges faced, accomplishments achieved and a look ahead to the goals for the coming year. You know what I'm talking about...the dreaded "R" word. That's right...RESOLUTIONS!

What will your resolution be for 2006? Oh sure, there are the usual ones..."get in shape", "save money" and "get organized". Of course, those are all important, but let's think outside the box. Think about your business and what you would like to see happen this year.

Whether it's expanding your services or marketing your business to new customers, this is the time to set those goals. I hope that as a member of the SBCC you will take advantage of the many opportunities and programs we have to offer in order to help you achieve your business goals. From advertising on our website, participating in the annual Business Expo, or networking with members and potential customers at our mixers and events, there are plenty of opportunities for you to promote your business.

By all means, make a resolution to get organized, save money or lose weight, but be sure to include new goals for your business as well, and let the Chamber know how we can help you realize those goals.

Wishing you all a healthy and prosperous 2006!

Tammy Del Bene
President
SBCC

Business Profile *Jamie Fong*

Jamie Fong, one of the Chamber's newer members, has about 30 years of experience in the printing business, but started his own business in the last year to focus on his clients' printing needs.

Fong says his company's main objective is to solve his clients' communications problems when it comes to marketing, packaging, and promotional printing. His job is to match the best vendor or print shop with what the client needs so "everyone is happy," whether they be Mom-and-Pop companies or corporate enterprises. He also works on company branding, as well as point-of-purchase packaging.

He says has seen too many companies focus on keeping the presses running rather than on what the client needs. His bottom line is – the customer must get taken care of.

Fong's business is home based. He has lived in San Bruno for 12 years, is married and has 2 daughters. He says his typical day includes visiting his clients, vendors, and picking his kids up at the end of the day.

He joined the Chamber to be part of the "hometown" business network and to help grow his business. Fong is also a member of the East Bay Craftsman Club – an international printing organization whose motto is "Share Your Knowledge" – and Fong hopes to "enrich my community" by educating other local businesses about printing, marketing and packaging.

Fong hopes to see growth in his company – in sales as well as employees – and says he will spend his time during the next 15 to 20 years figuring out "what I want to be when I grow up."

For solutions to your company's communications problems and all your printing needs, call Jamie Fong.
